

Software Engineering

Project Presentation Report

Group Name: Chaotic Coders

Names of team members and what did each one contributed toward putting together the presentation such as slides, etc.?

Alex: For this presentation, I created the Slide template and design. I also created/presented the Design of the Application, UML Diagram, Database Schema, and Key Features. Coordinated with the team to meet to practice our presentation multiple times before our presentation date.

Ethan: For this presentation, I created the two slides for algorithms, did the slide for data structures, and lastly the slide for demonstrating creating a reservation. I also presented the live demonstration for the reservation as well. I participated in practice as well with the rest of the group.

Minas: For this presentation, I created the slides for “Problems running a Hotel”, “Introducing our Application”, “Accomplishments”, “Future implementations” and “Conclusion”. Also, presented the information for the slides mentioned above.

Nura: For this presentation, I created the challenges and the solution slides. And I also participated in our group meetings for practice.
